“ A life ended sooner then it should have, I'm sorry for the loss of Holly Blaylock. I did not know her but she seems like a very kind person. It is very sad to know that a life ended at an early age, I know how this feels cause I to had an older brother of mine that passed away at the age of 18. Time will somewhat heal the grief and pain left behind for the ones that was close to Mrs Blaylock. But more importantly what you do with your time is key to healing as much as possible even though there will be a scare deep in our hearts for our loved ones that parrished. Keeping the mind focused or being occupied helps a lot. Being close to God especially at this difficult time is very beneficial. So I say to those that were close to Mrs Blaylock, keep busy and keep close to God so he can lift you up and support you all. My condolences.

“ As a patient of first, Dr. Bacon, and later, Dr. Logan, I always found Holly to be kind, friendly, efficient and compassionate anytime I would be in the office. She always took good care of me. Any time I left a voice mail or message, she would handle it quickly and call to let me know she'd found the message and what had been done about it. She always went the extra mile in taking care of me and I appreciated it. I always felt safe and loved by her when I was at my doctor's office and I know countless numbers of animals were helped by her and loved by her, also. I always admired the devotion she gave to that wonderful cause of helpless, hurt or hungry animals. Holly had a big and loving heart towards people and animals, both. I consider it a blessing to have known her and my deepest sympathies go out to all her family.

“My dearest Holly, not only is my heart broken from the loss of a treasured friend, but a big chunk is missing. I will never get to hear that laugh again, never answer the phone and hear you on the other end, but I will get to see you again one day. Where there is never a separation or sorrow again; where The SON is the light and there is no darkness. My precious Phyllis, Larry, Patrick, Seth, and all, my heart weeps with you and my prayers are deep for you. Only GOD can comfort this kind of grief. With all my love and prayers

“Holly was the greatest nurse our family has ever seen. Thank you for being part of our grandmother's care all these years. She truly made the world a better place and knew how to put a smile on her patients' faces everyday. Your family is in our prayers and we are so sorry for your loss.

“ *Holly,
I can't believe your really gone. I keep waiting for someone to wake me up and tell me it was just a nightmare. I just can't believe your gone. Im so sorry for your family because they have lost such a beautiful person inside and out. But as long as there's animals in Heaven, I think you will be just fine. It's us that's selfish and want you here.*

I know the last year or so wasn't so easy on you. I tried and i hope I tried enough as much as a friend can. You were special to me and always will be. I love you sweet angel. Now go fly with those beautiful wings you earned while you were here. We were all lucky to have you. You were definitely one of a kind.

*Love Always & Forever,

“ Holly was a wonderful young lady, an inspiration to everyone she came in contact with. Holly was my nurse for 23 years when I was under the care of Dr. Bacon. She had so much love and compassion for her patients. Fly with the nurse angels Holly, may you rest in piece.
